

# SITKA LOG HOMES

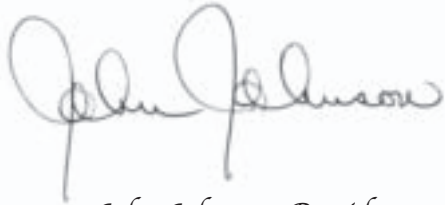

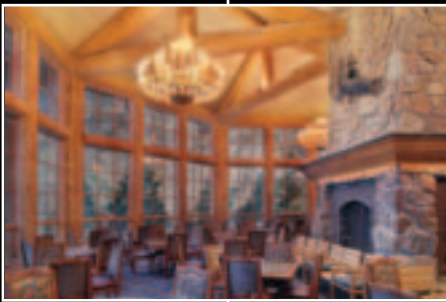

*Classic*

*A*fter many years of building everything from small vacation cabins to elaborate homes and large ski lodges, we thought we would share some of our portfolio. We have worked together with many talented architects, designers and home owners directly. The following photos are an accumulation of the efforts from some of these projects, we believe their timeless beauty speak for themselves.

*I am very pleased to present the following Sitka Log Homes projects.*

A handwritten signature in dark ink, appearing to read "John Johnson", is centered within a light gray rectangular box.

*John Johnson, President*

*Timeless*
